This is a preliminary form for Adolescent Cancer Research Organizations. This completed form will be submitted to Biotique System's for further review. You will be contacted by a Biotique System's Representative within 10 business days regarding your application. If preliminary grant form accepted an interview for further information will be required before any Biotique Software is licensed to your organization.

For an accepted Application Biotique will require Monthly updates of research and how Biotique's Solutions are being used. An annual review will decide whether the grant will be renewed.

Term of accepted license will be 1 year in length with renewals in 1 year increments upon completion of annual review.

Any research papers that uses Biotique's Software must include Biotique Systems Inc. in the Author's section. Any drugs, compounds, diagnostic tests, or therapies that are developed in part using Biotique's Software must include Biotique System's Inc. as part of the inventors.
